Account Number: **210270965**

Please use your name as the reference narration and email the receipt number

## General Terms & Conditions of Breeding Contract

---

Tashlin Jeffries Phone: 0417 977 635

---

### STALLION STUD FEE

- The booking Fee for the Stallion Omer RS fan Top en Twel is \$500. The booking fee is non-refundable and is **payable upon booking** when the Mare Owner signs this agreement and returns it to Kendall Park Friesians.
- The Stallion Stud Fee for the Stallion Omer RS fan Top en Twel is \$1650 (including \$500 Booking Fee). The balance of the service fee is payable 7 days prior to collection/insemination of semen.
- Should more than one embryo result from a breeding, the mare owner has the option to pay another full service fee to **KPF** or have one of the embryos terminated, as only one service certificate will be issued per service fee.
- If the mare being bred is to be used for Embryo Transfer with this service and the mare conceives twin embryos, the owner has the option of implanting one of the embryos, or both. If each embryo is implanted in separate recipient mares, then another service fee will be charged to the mare owner on receipt of a positive 21 day pregnancy scan of recipient mares by a qualified veterinarian.
- **No semen shall be shipped until all costs and expenses relating to collection, handling, packaging, and transport have been paid in full.**

### CHILLED SEMEN

- Chilled semen is provided for insemination into one mare only per stud fee. Upon payment being received **KPF** will supply enough semen from the stallion Omer RS fan Top en Twel to inseminate the mare identified in this contract.
- The Mare Owner must give **OLIVE GROVE EQUINE CLINIC** at least 24 hours prior notice of where and whom the semen is to be transported as described in a SEMEN ORDER FORM.
- **KPF** does not insure semen. Please be aware that risk of loss and harm to the semen passes to the Mare Owner at the moment when the semen leaves **OLIVE GROVE EQUINE CLINIC**. Nor can we be held responsible for adverse weather conditions affecting delivery.
- Provided all monies owing and liabilities to **KPF** under this contract are paid and discharged and subject to the signed declaration from the Mare Owner's Vet/ AI Technician confirming a positive pregnancy test **KPF** will then issue the Mare Owner a Service certificate.
- The mare owner is responsible for contacting **OLIVE GROVE EQUINE CLINIC** to arrange for the collection and shipment of semen.
- Please contact **OLIVE GROVE EQUINE CLINIC** for associated collection/preparation/transport fees for semen and applicable collection times available.
- Delivery will be to the address stated on the SEMEN ORDER FORM, unless otherwise notified.
- Please remember that while we will do our best to deliver your semen on time with the utmost care, occasionally stallions do not wish to perform, and therefore we cannot be held responsible for late delivery of semen.

### RIGHT TO REFUSAL

- **KPF** or its contractor may refuse to inseminate a mare if she poses an unacceptable danger to herself, handlers or stud property; the mare is unsuitable for breeding, as determined by **KPF** in its absolute discretion; or the Mare owner does not fulfil any of the conditions set out below:
  - (a) the mare must be halter broken and able to be led
  - (b) Vaccination History
  - (c) free of illness and disease
  - (d) free of injury, except as disclosed in contract **PRE-EXISTING INJURIES**
  - (e) mare must be of good health, not grossly overweight or in poor nutrition
- **KPF** reserves the right to refuse sale of semen to any mare owner at its discretion

### MARE OWNER OBLIGATIONS

- Mare owners are responsible for all transport arrangements and on stud expenses and are required to give at least 48 hours notice of delivery and collection.
- The Mare Owner authorises **KPF** and **OLIVE GROVE EQUINE CLINIC** as agent for and in the name of the Mare Owner, at the Mare Owner's cost in all Respects, to engage a Veterinarian, Farrier, Dentist or other health or welfare professional to examine, test or treat the Mare/Foal whenever **KPF** or **OLIVE GROVE EQUINE CLINIC** in their absolute discretion, considers it necessary or prudent to do so.
- All mares will undergo a veterinary examination and follicle test prior to breeding.

## SERVICE CERTIFICATES

- Provided all monies owing and liabilities to **KPF** under this contract are paid and discharged, **KPF** will issue the Mare Owner a Service certificate after receiving proof of a positive pregnancy of the mare.

## FREE RETURN

- In the event that the pregnant mare does not produce a live foal, the foal dies within 24 hours of the time of birth, or a negative pregnancy test (after the mare has been initially declared pregnant by a qualified Veterinarian), **KPF** will offer a free return during the following breeding season under the terms of this agreement, subject to the Mare Owner giving **KPF** a Veterinarian's report within 14 days of the mare being known to slip, abort, or death of foal detailing outcome of the pregnancy and mare's condition. Failure to comply with these terms will render the free return null and void.
- If the mare dies, is unsuitable to breed, or is sold, the Mare owner can use a substitute mare which meets the approval of **KPF** to be used the same or following breed season.

## ADDITIONAL CONDITIONS

- **KPF** provides no guarantee that foals will be born any particular colour, build, height, or amount of feathering and hair.
- **KPF** shall not be held responsible for any foal born with a defect, the mare owner acknowledges their responsibility to ensure they have their Friesian mare DNA tested by the **KFPS** for Hydrocephalous, Dwarfism and Chestnut Factor and make a good choice.
- Should the stallion die, become unfit for service or be sold, then another stallion (if available) may be offered, or **KPF's** liability will be discharged fully by the refund of the balance of the service fee, less any fees incurred to that date and less the non-refundable booking fee. This contract will be null and void.
- This contract shall not be assigned, sold or transferred by the mare owner.
- **KPF** shall be entitled to hold the mare/foal on the stud in respect of any outstanding fees. Additional agistment fees will apply to the mare/foal while it is being held and this must also be paid. Further **KPF** shall have the power to sell the mare/foal to recover outstanding fees should they not be paid within 30 days of the due date.
- All on stud mares will have priority to receive semen.
- This contract is made and entered into in the state of Western Australia and that it shall be interpreted, enforced and transacted under the laws of said state regardless of the manner of breeding solicitation.
- The mare owners signature on this contract certifies that he/she has read and fully understands all of the terms and conditions outlined herein and accepts this contract as a legal and binding instrument on behalf of the Owner, Owner's heirs, successors and assigns. This contract contains the entire agreement between the parties.

## WAIVER OF LIABILITY

- All reasonable care will be taken but no responsibility will be accepted by **KPF** or and its employees, agents and contractors for any illness, injury, loss or death to any horse/foal whilst they are in the care of **KPF**. We suggest insurance be taken out on any animal being sent to stud.
- Neither **KPF** nor **OLIVE GROVE EQUINE CLINIC** is obliged to keep a current insurance policy covering death or injury to the mare/foal or the mare's foetus, or loss or damage to the semen or shipping container.

I have read and fully understand and agree to abide by all and any of the terms and conditions set out in this contract by Kendall Park Friesians.
